

# SYED MUDASIR HUSSAIN

## Full-Stack Developer

📞 86600119294 @ arsalain12@gmail.com 🔗 <https://www.linkedin.com/in/syed-mudasir-hussain-31b5961ab/> 📍 Bangalore, India

### SUMMARY

Full-stack developer with 2.8 years of experience in Next.js and Node.js, building high-performance, SEO-optimized web applications. Skilled in server-side rendering, RESTful API development, and dynamic dashboards. Focused on clean code, efficient data handling, and seamless user experiences.

### EXPERIENCE

#### Software Engineer

[Backpackers United](#) 07/2023 - 01/1970 Bangalore, India

A travel-focused company providing services and itineraries

##### Backpackers United website

- **Built with Next.js & Tailwind CSS and Nodejs** – Ensuring fast performance, a responsive UI, and efficient styling.
- **SEO-Optimized with Advanced Sitemap** – Over 1500 pages with structured SEO code for better search engine rankings.
- **Scalable & High-Performance** – Designed for seamless navigation, fast loading speeds, and a user-friendly experience.

##### Dashboard

- **Comprehensive Management System** – Supports CRUD operations for handling enquiries, bookings, and other travel-related data efficiently.
- **Role-Based Access Control** – Different user roles (Sales, Operations, and Admin) ensure secure and streamlined access to relevant features.
